Programme Officer: Lynette Benton

lynette.benton@wealden.gov.uk - Mobile: 07977 415678

15 July 2019

Dear Representor

A guide to the assessment of air quality impacts on designated nature conservation sites: Institute of Air Quality Management June 2019.

It has recently come to my attention that the above has been recently published and is available as document Y17 of the Examination website.

I would be grateful if the relevant parties could consider if the above document has any implications to the approach that was taken in respect of the air quality and Habitats Regulation Assessment which accompanied the submission version of the Plan.

If you wish to make written submissions please provide a short written response of no more than 500 words by Wednesday 24th of July.

If you have any queries on this matter please contact the Programme Officer.

Yours Sincerely,

Louise Nurser

Louise Nurser (Inspector)
